Teaching and Learning at Park Lane

At Park Lane, we endeavour to provide the finest educational experience for every single child. Our holistic and well-rounded approach towards education provides an exceptional foundation for life-long learning, and we ensure that each child has the opportunity to grow in self-confidence, academic success and artistic endeavours. We do this through providing a rigorous curriculum, opportunities for wide-ranging extracurricular provision and ensuring learner-centred lessons.

We have extensive plans in place for the provision of remote education. This will ensure that the small number of children who need to be educated at home, for example, due to shielding or self-isolation, are given the support they need to continue learning. Remote education is of a high quality and aligns as closely as possible with in-school provision.

1. Aims

This remote learning policy for staff aims to:

- Ensure consistency in the approach for remote learning for pupils who aren't in school
- Set out expectations for all members of the school community with regards to remote learning
- Provide appropriate guidelines for data protection

- Topic lessons are to be pre-recorded lessons uploaded onto Seesaw. Home learning portfolios will be sent out in the event of a long-term closure.

Providing feedback on work:

- Pupils can send any completed work back to teachers on Seesaw for feedback.
- Teachers will respond to work submitted within 24 hours (Monday – Friday)
- Teachers will mark as normal using green and pink highlighters and responding with a comment to each activity.
- Pupils can also message their teacher in the Zoom chat or via a note on Seesaw. There will be time after each Zoom lesson where teachers remain in Zoom so children can come back and have any queries or questions resolved quickly.

Keeping in touch with pupils and parents:

- Regular announcements/ videos posted to be used to engage with pupils and parents during remote learning.
- Messages received on Seesaw from the parents and pupils are to be checked between 08:50 and 15:25- Mon- Fri. Messages must be replied to within 48hrs. Emails that are sent to admin to be forwarded on and information given for admin to reply within 48 hours.
- Any issues that are received are to be dealt with professionally by the class teacher and the phase leader should be informed. If necessary, teachers to contact a member of SLT for advice
- Teachers are to attempt to make contact with all pupils in their class for well-being calls every week via telephone call, when in school, or from a withheld number. Contact details can be accessed from SIMS, please ensure you log off and do not share information with a third party. - Teachers are able to access parent contact details via SIMS using a secure password. Do not share any details with third parties and ensure SIMS is logged off after use
- SLT have the ability to locate personal details of families when required through securely accessing SIMS. SLT are not to share their access permissions with other members of staff. School laptops and iPads are the school's preferred devices to be used when accessing any personal information on pupils

4.2 Processing personal data

Staff members may need to collect and/or share personal data such as email addresses as part of the remote learning system. As long as this process is necessary for the school's official functions, individuals won't need to give permission for this to happen.

However, staff are reminded to collect and/or share as little personal data as possible online.

4.3 Keeping devices secure

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected – strong passwords are at least 8 characters, with a combination of upper and lower-case letters, numbers and special characters (e.g. asterisk or currency symbol)
- Ensuring the hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device
- Making sure the device locks if left inactive for a period of time (both laptop and iPad)
- Not sharing the device among family or friends
- Installing antivirus and anti-spyware software
- Keeping operating systems up to date – always install the latest updates
